## BOOK SYNOPSIS

A “Breadhead” is a dedicated baker, someone who bakes often, who thinks and dreams about bread and is not afraid to experiment. In this new book by Father Dominic (“The Bread Monk” of public television fame), you’ll learn more than just basic techniques—you’ll find out why yeast behaves the way it does, how to substitute different flours in a recipe, and how to take a simple dough and make it extraordinary for a special occasion. Starting with tools of the trade (you need less than you think), Father Dom takes you through the baby steps of baking all the way to beautiful loaves that will amaze and delight your family and friends. Special attention is paid to kneading—a stumbling block for many beginning bakers—and simple shaping techniques that can make your loaves look terrific. You’ll find braided loaves, flatbreads, pretzel bread and bagels, dinner rolls that look like roses, butterfly-shaped breakfast treats, and a muffin recipe that uses a secret ingredient: melted ice cream! And all in Father Dom’s funny and friendly style of instruction, with helpful photos and illustrations.

**BAKING SECRETS FROM THE BREAD MONK** - Are you looking for Ebook Baking Secrets From The Bread Monk? You will be glad to know that right now Baking Secrets From The Bread Monk is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product. Best of all, they are entirely free to find, use and download, so there is no cost or stress at all.
